

Hello,

My name is Dan Peterson. Let me start off by saying I'm sorry about the death of your husband Mike. I found his ring in a parking lot but don't remember exactly where it was. I think it may have been the Smith Haven Mall but I am not certain. Over the years I would come across the ring, wonder whose it was, and put it back in the box where I kept it. About a month ago I came across the ring when looking for old pictures. I had not seen it for at least 10 years and thought social media would be the best way to try to find the owner. I sent a message to the Calhoun High School Alumni Facebook page briefly explaining how I came in possession of the ring, and described it. They wrote back saying there was nobody on their Alumni roster with the initials MEB. I was discouraged but asked them to look further and even sent a few pictures. I know now, after speaking to Jim Anania, that the ring was brought up at the recent Alumni meeting, and it was there he was given my contact information. I am so pleased to be able to give you back a small piece of Mike that you never knew existed, and I hope it provides you a good memory of him. If you would like to talk, I would be happy to find out a little more about the person I wondered about for 35 years.

A handwritten signature in cursive script that reads "Dan".
